HOW TO PLAY :

First mission: chase down two planes with oppressor mk2 and kill the pilot.
When u took down two planes, next mission is to kill leader of terrorist group and his bodyguards. When u kill them, next mission is to kill the corrupted president and his bodyguards. After u done that, awesome u completed all missions.

Terrorists have high health and armor, I recommend using trevor or michael for that mission (their special ability).

INSTALLATION: put .xml file into GTAVdirectory/menyoostuff/spooner
